

SQUABALL

Squabball is an innovative racket sport that combines the technique and strategy of traditional racket sports with the excitement of scoring goals. It is fast-paced, easy to learn, portable, affordable to implement, eco-friendly and highly engaging for both participants and spectators.

About Squabball

- Squabball combines the use of rackets with goals, it can be played by two or four players, both indoors and outdoors on a 12 x 3 meter court
- Squabball is the only racket game in which two players participate in the service, and one of the few that uses no central net
- Squabball helps improve concentration, mental agility and reflexes, due to the small court dimensions and fast ball exchanges.
- Goals are very quick and easy to assemble!

- 2 Day event across a weekend
- Winning the Championships gets you automatic qualification for the Worlds
- Due to growth stage of squabball, a crowd of family and friends can be expected

OPTIMIZE YOUR FACILITIES WITH SQUABBALL

The Squabball court is portable & quick to set up in 5 min. Some examples of how you can organize your courts:

Headline Requirements

- No specific facility requirements but must provide realistic photos of facilities, dimensions and ground material
- Basketball size venue would be appropriate, must have no low ceilings
- Provide volunteers, ideally with a passion for racket sports
- Advertisement via local platforms to help increase visibility of event
- Insurance required for destinations in the USA and Canada
- Support with catering for 10-15 athletes would be nice but not essential
- Transportation and hotel cover for organising committee

Host City Benefits

- Become a pioneering city in Squabball's international growth
- Build a complete economic ecosystem around a new sport that is fast-paced easy to learn, portable, affordable to implement, and highly engaging for both participants and spectators
- Volunteer Opportunities
- Long term investment through creation of local market, easy public access to an accessible sport and many health benefits it brings to the population
- Excellent fit for schools, sports clubs, municipalities, and community programmes.
