Events Services

AUDIO

With decades of on-the-road experience, our team understands the unique challenges of live events and touring productions. We leverage that expertise to seamlessly deploy cutting-edge audio systems tailored to each occasion.

BACKLINE

We meticulously maintain our backline inventory, ensuring that every instrument is in pristine condition and ready for the spotlight. Our dedicated technicians are experts in instrument setup, sound optimization, and troubleshooting.

COMMUNICATIONS

Our extensive range of services includes RF solutions, IEMs, IFBs, comms, and walkies. We harness the power of our own fiber and IP protocols to deliver unparalleled flexibility and adaptability.

LIGHTING

Our expert lighting designers meticulously craft immersive environments with unparalleled attention to detail. From initial concepts to renderings, to final execution, no team excels in producing flawlessly illuminated spaces like us.

NETWORK INFRASTRUCTURE

Clair Global deploys portable networks capable of connecting tens of thousands of event users, providing an excellent WiFi experience for all. We can engage the audience with custom captive portals.

REHEARSAL STUDIOS

We understand the importance of having the right environment for productive rehearsals. Our multi-functional rehearsal spaces are designed to meet the technological needs of productions of all sizes.

RF

Clair Global supplies all equipment for wireless microphones, in-ear monitors, and antenna distribution systems. We also provide necessary RF licensing and advisory services.

VIDEO

Whether you need a gorgeous high-resolution LED wall, large video monitors, or projection solutions, our video designers and system technicians provide unparalleled content delivery utilizing a variety of systems to fit any event's needs.
